
	PT FLIN CONSULTANCY INDONESIA	
ISMS (Information Security Management System) GENERAL POLICY		
Document No: 003/FLIN/ISO/2025	Ver: 1.0	Effective Date: April, 21st 2025
Checked By: CISO	Approved By: CEO	Page 1 of 2

Information Security Policy:

1. Information is the main asset in the operational process at PT FLIN Consultancy Indonesia. Therefore, confidentiality, integrity, and information availability shall be managed to maintain its security.
2. Implementing the Information Security Management System (ISMS) at PT FLIN Consultancy Indonesia refers to the ISO/IEC 27001:2022 ISMS standard.
3. The top management of PT FLIN Consultancy Indonesia always shows leadership and commitment to implementing the ISMS in the organization.
4. The ISMS must be communicated to all employees and related third parties through existing communication media to make it easily understood and followed.
5. PT FLIN Consultancy Indonesia shall continuously increase awareness, knowledge, and skills regarding information security for internal employees and related external parties.
6. The organization conducts studies and manages risks related to information security based on the threats and vulnerabilities that exist in each asset and process.
7. If there are any threats and vulnerabilities that have the potential to disrupt information security, all interested parties must report to the ISMS Head or other designated officers.
8. All leaders at all levels are responsible for monitoring and evaluating the effectiveness of applying this policy in all work units/sections under their supervision.
9. All employees are responsible for maintaining and protecting the security of information assets and complying with established ISMS policies and procedures.
10. Any violation of this policy and other related policies will be subjected to administrative sanctions such as revocation of access rights to information systems and disciplinary actions in accordance with applicable regulations.
11. Any technical policies and procedures will be made and applied separately by referring to principles set out in this ISMS General Policy.
12. ISMS General Policy is reviewed at least once a year or if there are any significant changes.
13. The organization shall continuously improve the ISMS's suitability, adequacy, and effectiveness.
14. The organization is committed to complying with the regulations and laws in force in Indonesia.
